

Remarks

The claims are 1 and 3-19 with claims 1 and 5-8 being independent. Claim 2 has been cancelled without prejudice or disclaimer. The independent claims have been amended to set forth that the second voltage amplitude level is higher than the first and that the block selection signal and the element driving signal output from the logic circuit have the second voltage amplitude level; the remaining claims were amended as to formal matters. Applicant submits that no new matter has been added. Consideration of the present claims is respectfully requested.

Applicant's undersigned attorney may be reached in our New York office by telephone at (212) 218-2100. All correspondence should continue to be directed to our address given below.

Respectfully submitted,
